PROJECT MANAGEMENT

DRAINAGE SYSTEMS

Full job description

Your new company

An opportunity to work for a distinguished tier one contractor on a large-scale project situated in the central west region. A National company with a strong vision within the engineering and construction space.

Your new role

Your new role will consist of reporting into the project manager and assisting with the management of stakeholders, cost control, purchase orders and claim management. This role will also consist of managing a team to carry out bulk earthworks and updating works through the relevant programmes.

What you'll need to succeed

To succeed in this role, you will have experience in..

- Stakeholder Management
- Civil Earth Works
- Drainage Systems
- Conveyor handling systems
- Long lead procurement
- Project management and cost control eg: assist the PM to update financial systems, prepare purchase orders and manage the claim and payment process.
- Updating works gnat charts and programs
- Microsoft projects experience is preferable

What you'll get in return

A 6-month contract with a potential 6 month extension after this working for a distinguished tier one national company matched with a competitive salary, this role includes working on a large scale million dollar project within a friendly team environment in the central west region.

What you need to do now

If you're interested in this role, forward an up-to-date copy of your CV to liam.baggley@hays.com.au or call Liam now on +61 2 9249 2237
