About Our Client

My client is a critical State Government entity with exposure to major WA projects. They play a major role in shaping key infrastructure developments across the state.

Job Description

This role will see you lead the strategic direction of procurement within the organisation. The role will primarily be an advisory leader to each project under the company portfolio. Furthermore this role will oversee the overall procurement strategy and planning which is then applied to each project.

- Lead the direction of the commercial procurement function within the business framework
- Identify and implement a range of short and long term strategies aligned to the future of the organisation
- Lead the procurement advisory function to each project across the group by partnering with the project managers and other relevant stakeholders
- Analyse current market trends with a view to advancing procurement technology and innovation
- Lead a small team through a range of project and corporate procurement & contract activities
- Focus on a range of continuous improvement activities including contract management, risk, sourcing, stakeholder management, KPI reporting and policy roll out

The Successful Applicant

The successful candidate will be an experienced professional with exposure to

Government procurement such as a government trading enterprise or similar. Candidates who have a combination of experience in private and public sector will be highly regarded. You will be a leader of people with a passion for coaching, training and developing staff. Operationally, you will be highly skilled at setting up and implementing strategic procurement plans for the short and long term. You will have a strong focus on identifying continuous improvement opportunities along with being in the day to day detail of the function.

What's on Offer

- CBD location
- Flexible working environment
- Salary up to \$145 + super
- Strategic leadership role
- Exposure to major WA infrastructure projects
