Full job description

- Professional Training and Certification packages.
- Hybrid role with free on-site parking.

About Our Client

An Australian owned and operated Insurance company with over 1500 employees in Australia and part of a global network with over 50 offices worldwide. They are an award winning insurer with high standards of corporate governance and service recognized by APRA, ICA, Money Magazine, CANSTAR, MOZO and more.

Job Description

The project is to provide the agile delivery of changes to existing and new web-based applications and services, rebuilding the global claims system, designing and establishing different service levels while strengthening security and reliability. Your key responsibilities will be:

- Automating and scripting using DevOps and Infrastructure as code.
- Contribute to the design and implementation of new digital systems, assisting with migrations and development of new applications.
- Work closely with Application Development Teams to optimize delivery cycles while managing risk.
- Key stakeholder engagement and maintaining strong communication across the business.

The Successful Applicant

3+ years proven commercial experience in cloud infrastructure design and implementation.

Knowledge and skills in infrastructure automation and deploying infrastructure as code.

Hands on system administration, maintenance, problem solving, design and

implementation skills and knowledge across the following areas:

- AWS certifications viewed favourably
- automation and scripting
- CI/CD Pipelines
- Microservices Architectures and Containerisation and Orchestration

What's on Offer

- Permanent full-time position.
- Competitive salary package - commensurate with experience.
- Professional Training and Certification packages.
- Hybrid role with free on-site parking.
- Opportunity to upgrade and maintain infrastructure for a global consortium.
- Opportunity to make a difference by giving back to the local community through various social and environmental programs.
- Join a fun and accountable organization that values employee personal development, professionally and culturally.
