### Full job description

#### Your new company

This is an exciting opportunity to join an expanding organisation specialising in Defence and government related projects. Working within this dynamic and expanding industry leader will give you the opportunity to deliver an existing Defence contract.

#### Your new role

This Delivery Lead role will see you lead the execution of the migration of voice and data communication services to support a large defence program. Your responsibility will be to develop and update the interface documentation. Additionally develop, document and execution of transition plans to support integration, verification and validation across Defence sites while maintaining existing operations. You will coordinate to ensure the appropriate engineering approvals are agreed ahead of transition activities. You will have experience liaising with all levels of stakeholders including internal and external customers including the Department of Defence.

#### What you'll need to succeed

- Degree qualifications in a related engineering discipline
- Project Delivery experience with engineering technical leadership
- Expert knowledge of project methodology within CASG
- A general understanding of Voice Communication Systems
- Excellent interpersonal and stakeholder management skills
- Currently have an Australian Defence Clearance of NV1, or one able to be reinstated

#### What you'll get in return

You will be offered a permanent position with a leading organisation that specialises in Defence Programs. Offering an excellent working environment and culture, with future opportunities for career development and working

across varying programs in the Newcastle area.
